

Submitter: Jackson Tudela

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

This bill is antithetical to our rights as US Citizens and Oregonians. I do not support creating an exclusive class of gun ownership for some individuals over others. None of the changes that would be made by 4145 are actions proven to make a community safer. There is no basis to these changes as violent crime continues to go down over the years.
