

Submitter:

Darlene Atkinson

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

HB4145

To whom it may concern,

I am a hard no on this bill because my right to self defense, is an inherent and human right, not granted by the government. In fact, it is suppose to be protected by the government per the Oregon and US Constitutions and absolutely not infringed upon. I don't need to pay a price to the government or prove determined capabilities set by the government, for a permission slip to protect and defend myself and my family. That is absolutely an infringement. Additionally, no one has the right to determine how much ammunition I might require to elimtate a threat. The end.

I urge you to NOT infringe on my rights and vote no.

Darlene Atkinson
