Enough is enough! This egregious showing of how our democratic system is actually manipulated by bully's in their same party. We have witnessed this now, but how many times has this type of behavior not been seen? This Bill should have died when Rep. Tran voted against it, drawing a tie. But because of this disgusting abuse of power, our rights, our civil rights, will be stripped from us like a true totalitarian regime, all portraid as safety?! That is nonsense! Every year, more and more legislation, each time chipping away at our Constitutional rights, and it never leads to any of their talking points. No one is safer, no lives are ever saved, and they know it. Because they use the same arguments again and again, until we are completely disarmed. And I say ENOUGH IS ENOUGH! Thank you for the opportunity to testify.
