Measure, Appointment or Topic: HB4145
Senate Rules Committee,

I am opposed to HB4145 and you should be as well. This bill is a direct violation of our 2nd Amendment constitutional right of the United States and state of Oregon.

This bill requires a permit to purchase a firearm and payment for such permit. No where in either constitution is such requirement. The drafters of this bill are overstepping what the legislature is responsible for. This type of action constitutes a tyrannical government against its citizens. This action needs stopped now or you will be causing a rebellion to put the tyrannical government back in check as our country has had a history of.

I cannot afford any more fees or taxes this state is pushing on me. I am a lifelong Oregonian of over 80 years and I have had enough!

You all must oppose HB4145 and do not pass out of this work committee!

Thank you,
Pearl Baumgartner
