

Submitter: Jayne Sider

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

Hello, my name is Ashley Sider, and I live in Portland, OR in Multnomah County. I am testifying in support of HB 4145 because I am outraged by the number of mass shootings happening in this country. America's disproportionately high rates of gun violence are tragic and shameful. Lawmakers must cease pointing fingers and take some accountability in this senseless epidemic of gun violence.

HB 4145 honors the will of Oregon voters who passed Measure 114 in 2022 and provides the clarity needed to implement those life-saving policies effectively and responsibly.

This bill fixes key implementation issues by giving agencies time to build the permit system, ensuring consistent judicial review, allowing thorough background checks, creating sustainable funding, and preventing permits from being issued based on incomplete information.

By addressing these gaps, HB 4145 moves Measure 114 from principle to practice while respecting constitutional rights and prioritizing public safety.

I urge you to move HB 4145 forward without delay. Thank you for your time and consideration.

Sincerely,
Ashley Sider
