Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

HB4145

I believe strongly that this bill strips the rights of law abiding Americans and is obviously an overreach and unconstitutional. Creates a lot of hoops for good people to obtain a firearm while criminals seem to have no issue doing what criminals do. Criminals with bad intentions will get them regardless of what laws are put into place. As for the suicide argument I believe if somebody wants to harm themselves they will find a way. The gun is not the problem. 4145 will have no impact on solving anything other than stripping Americans of there constitutional right
