

Submitter: Garrett Krupp

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

Not only is this bill a blatant disregard of Heller, Bruen, and both U.S. and Oregon constitutions, sponsor Jason Kropf has received over 1.3 million dollars from non-Oregonian billionaires to advance this bill. Kropf's city of Bend, located in Deschutes county, did not pass Measure 114 when it was on the ballot in 2022.

Additionally, Section 18 of this bill is clearly a violation of representation. Anybody with integrity and respect for representative democracy would never eliminate the elected judiciary of an entire state save one county where the results of potential challenges are a foregone conclusion. How can the judges of Marion county have more authority than the judges in my county? Any representative or senator who votes yes on this bill should feel shame.
