

Submitter: Stephen Jenkins
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: HB4145

I cannot disapprove of this measure enough. As written, it stands against every tenet of the freedom of gun ownership by law-abiding citizens. Allowing retired officers to bypass the restraints of these new measure will unduly create a privileged tier of individuals who the law does not apply to. Unnecessarily increasing the waiting period and burdening citizens with increased fees is unnecessary and burdensome. Furthermore, limiting magazine capacities to 10-rounds cannot function, as so many magazines already of 30-rounds have been bought/sold in this state for decades. How in the world would every single person who had bought a 30-round magazine be able to show proof of purchase and ownership for every, newly-outlawed piece of equipment they own? It's ridiculous. I am for safe, lawful gun ownership in Oregon. I am in favor of keeping our state and it's constituents safe from gun violence. I do not believe these measures will help in any capacity, and it *will* create hurdles, roadblocks, and legal grey areas for lawful Oregonians legally wanting to own a firearm.
