

Submitter: Danny Nelson
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: HB4145

I am a Oregon native and retired member of the US Army where I live is rural the police response time is 45 minutes more like 4hr I have been working weekends at local bars and events when weapons have been used and the police have been called we are lucky if they actually show up within 24hrs usually we have to deal with things ourselves the ability to defend ourselves and others is a god given right that isn't to be infringed upon criminals don't ask for permission they target the weakest using violence and aggression by implementing 4151 you are handcuffing legal law-abiding citizens and turning them into easy prey for criminals in our society, you are also encouraging criminals from out-of-state to come here. Knowing that we are easy, prey. There are also unintended consequences of this passing where I live. It is 30 miles to the nearest town

In our small town we have one gun store

It is the only place to buy ammunition. Weapons or magazines.

You would directly be a leading to the closing of this family operated business making our ability to have access to our second Amendment rights. Another 30 mile trip now to address your magazine bands within this bill, I will say this. We have bears where I live. We have coyotes, we have bobcats, and mountain lions these natural predators go after live stock. Chickens, cows goats, family pets.

And God help us children.

When adrenaline is running, sometimes you need more than 10 rounds, depending on the size of the animal, you need to bring down and the urgency and which you need to do it, ham, stringing us by forcing us to use magazines that are smaller than what the manufacturers send the weapons out with is. Yet another overstep of someone who does not understand that these weapons are tools for most oregonians. I love this country. I love our constitutional rights. I cannot believe that I'm living in a time where I'm having to write a letter to defend those rights to my own government. Let alone my state representatives. I faithfully served in Iraq and Afghanistan

Serving in the Oregon Army National Guard for my career. Until medically retired, I am now a 100% disabled and considered one of those easy targets. I have a 5-year-old daughter. Who I'm supposed to be able to defend

Taking these rites, his not only unconstitutional it's flat out on American i pray you do the right thing.

And leave our second amendment rights alone. I do not support this bill are any bill that changes one letter of our constitutional rights, especially as an retired american soldier
