

Submitter: Lily Paine

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

This bill is an extreme overreach and does nothing to protect your constituency. Many marginalized people will be prevented from purchasing and owning firearms for defense and will be used to tack on additional charges if any one of those people have to use that gun in self defense. This is a poorly worded law that will be used by the state to abuse its power. Do not pass this measure.
