

Submitter: Kraig Hunter

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

Please vote this measure down as it will hurt marginalized and lower social economic residents of Oregon from legally purchasing firearms. I do not want activists sheriffs (and there are plenty of them) to have control over who they deem is fit to purchase a firearms and who is not. I have a trans daughter who does endure harassment and is today's GOP target of the month. Please vote no on this bill as I do not want an activist sheriff to deny my child the right to purchase a firearm to protect them and they're vulnerable legally blind wife and roommate if the political climate keeps getting worse for marginalized people.

The extra fee will also make firearms out of reach for poor families that hunt and fish to help subsidize their grocery bills.

Again, please vote no on this house bill. This is not what measure 114 was all about and doubling both the fees for permit and the waiting period is not what the public voted for.
