

Submitter: Paul Carrier

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

I'm writing to urge you to reject HB 4145 out of hand for the reasons stated below.

HB 4145 is a waste of your limited time in this spring's short season of the legislature, squandering the limited amount of time to consider amending Measure 114 at this point is disgraceful when we do not know how the Oregon Supreme court will rule.

HB 4145 is flawed and builds on the flaws of 114.

All firearms sales in Oregon already require a background check, adding another one just for a permit is just being malicious.

Gun control measures have always been used to disarm or discourage the poor and people of color from exercising their civil rights.

Laws like measure 114 and HB 4145 perpetuate that culture of disarming the poor and people of color.
