

Submitter: Jackson Holbrook

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

Measure 114 creates numerous and hostile roadblocks against citizens accessing their constitutional given rights. This measure would especially disallow marginalized communities from exercising their rights, and creates a special class of people who would be able to deny citizens the access to their right to bear arms, with the criteria being hazy to citizens. This is unconstitutional and not in the best interest of the people.
