Measure, Appointment or Topic: HB4145

As a free American living under the constitution in a country of a constitutional republic, I oppose any infringement upon our rights as Americans, as we the people. It is time this communist attitude stops. The constitution and the bill of rights are in place to stop the government from infringing, not the US citizen. It is your duty to uphold this and not undermine it. As a multi generational immigrant I am appalled on how you treat the constitution and we the people. I oppose this bill. You never had a right to propose in the first place.
