

Submitter: katherine stewart

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

Dear Senate Committee, I implore you to vote yes on HB 4145 as it protects vulnerable Oregonians from gun violence. Gun ownership should involve a permit just as owning a car requires registration and renewal of that registration through the DMV. Permit to purchase puts time between a new gun purchaser and having that gun in their hands so that if they are planning to do harm to themselves or others that process is disrupted. We know that people who have executed children in school shootings have in fact purchased multiple round magazines from gun stores or dealers and lives would have been saved if those were not sold. Weapons of WAR should not be sold in stores, that is beyond unconscionable. Please pass HB 4145 so that the voters can finally get what they voted for and implement measure 114. Thank you
