Criminals will not follow the law, they will get whatever weapon to harm good people. Who is going to defend my family against intruder? A bigger question is: Who is going to defend communities when the government start abusing people rightfully living in USA? I came running away from a communist country, and guess what is one of the first things the communist do: take the guns away from the people, so they (the socialists / communists) can abuse them.

I SAY NO. I FIRMLY OPOSE TO MEASURE 114
