Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

This is so stupid, one of the stupidest things I've seen Oregon consider.

There are no exceptions for CHL holders, no current courses in place already, so this could take years to implement the course part of this bill. It is intended to delay people purchasing firearms intentionally. It will also unfairly impact people who are poor and cannot afford the course and increased costs associated with purchasing a firearm. What about women who are purchasing firearms for self defense who have left an abusive situation? Someone being stalked?

How will this bill ensure that police officers, who are known to be discriminatory, will not discriminate against applicants?

You only included the portion of this being challenged only in Marion County because you know Eastern Oregon will oppose this again.

If this passes, I will be leaving Oregon and the liberal hell hole it's turned into. Hell with this state and the leaders who come up with this crap!
