

Submitter: Miguel Lozano

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

I, Miguel Lozano, am a native born resident of McMinnville, Oregon. HB 4145 not only is it a horrible addition to an unconstitutional measure of 114, but very discriminatory as well. This is only penalizes law abiding citizens and makes low income earners less likely to be able to afford to possess proper licensensing, and I believe it to be just another money grab made so that only high earners that can afford to live in safer areas are able to protect themselves and others. The amount of greed and disregard for citizens income status while making laws like this just shows the privilege of the people that propose these policies. Lastly I just think this is a disservice to Oregonians regardless of political affiliation and or where they land on this topic, money is money and money out of the hands of Oregonians and in the pockets of law makers is a real shame.
