

Submitter: Stephanie Bigman
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: HB4145

To whom it may concern:

I am opposed to HB 4145. A gun is a tool, used for hunting, recreating and defense by thousands of Oregonians. Criminals do not care about waiting periods, fees, permits, etc. All that you are doing is inhibiting law abiding citizens from exercising their constitutional rights.

It truly bothers me that our elected legislators would also try and push through a bill that is unpopular in the short session. The short session should be used for settling emergency issues, like the ODOT funding that you messed up in an emergency session. It should not be used to push through laws that the citizens barely have time to read about before you vote on them.

Please stop tinkering with gun laws and perhaps focus on real issues; like why our schools are rated so low, why Oregon businesses are fleeing the State, and why the heck we are prioritizing illegal immigrants over LEGAL citizens.

Thank you,

Stephanie Bigman
