

Submitter: Mary Weeks

On Behalf Of:

Committee: House Committee On Rules

Measure, Appointment or Topic: SB1516

This bill should not be passed without adding in additional safeguards. There should be a short retention time of data, with a maximum of 21 days. True end-to-end encryption should be defined in law. The use of ALPRs should be limited to serious crimes and the data captured by them should be limited to date, time and location.

Electeds should be protecting their citizens, not supporting mass surveillance that disproportionately impacts people of color and those exercising their constitutional rights.
