

Submitter: Christopher Pierce

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

It violates our second amendment right to bare arms. As a citizen of the United States, I don't support Oregon or Tina Kotek in this measure. Ghost guns are becoming more common than usual and a citizen who can pass a background check should have the right to have a firearm for self defense or if hunting. Our second amendment shall not be infringed per our Bill Of Rights
