

Submitter: Ian Knemeyer

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

Please don't allow this to become law.

I understand some people who have had their loved ones die generally want to blame someone or something. Many of the folks who support this have lost loved ones to suicide. Most agree that 4145 would not have saved their lives. So why are we doing it?

According to the Gun Violence Archive, gun violence peaked in 2021 and has been fallen more than 25% since then and still declining.

4145 is just more punishment for law abiding citizens. Another erosion of a constitutional right that is meant to protect us from the government, Why should we allow the government to control this.
