

Submitter: Jeff Elliott

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

I whole heartedly oppose any modification to gun rights. I have been afforded my rights by our forefathers who knew this would happen one day. The people behind this legislation are attempting to control the people by slowly taking our rights away. Kotek and crew need to back off. We have had enough and strongly oppose anything this partnership politics is doing. Stay out of our lives and quit overspending the people's money on ridiculous social programs. .
