

Submitter: Peyton Thompson
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: HB4145

Cops and civilians should not be a separate class. This bill creates a separate caste/class/whatever you want to call it. This creates a really dangerous precedent. Cops and civilians are equal because cops ARE CIVILIANS still, this bill changes that and creates a new caste of people. On top of increasing the permit is unfair to minority communities and communities that are underprivileged.

High capacity magazines are not a problem. Its lack of proper education from parents, peers and environment. All this does is keep disarming the law abiding citizens while the criminals that are already ignoring the law and planning things like mass shootings ignore yet another law. Criminals don't care about laws what is creating one more going to do?

Plus most gun deaths in this state are suicide. The difference between 10 and 30 is meaningless when thats accounted for. This bill does nothing for helping prevent that.
