

Submitter: Kyle Dick

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

This is blatantly unconstitutional and only affects already law abiding citizens, by design. This will do nothing to curtail criminal activity as they already don't follow the law, by definition. Frankly this state government has already made it's position clear, that it is anti-citizen and pro-crime with its continued attack on Oregonians' constitutional rights to defend themselves against the ever growing rampant drug and crime epidemic this state government invited upon us, with ludicrous decriminalization of hard drugs and enforcement of the law against violent crime. It is clear you've ordered police to turn a blind eye and not protect citizens and now you want to hamstring our ability to defend ourselves against an ever growing tyrannical government and criminal element. You aren't listening to the constituents you allegedly represent. No one wants this.
