

Submitter: Bryce Davenport

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

I strongly oppose this measure as it harms marginalized communities and empowers law enforcement. The mandatory permit will prevent working class people from accessing their rights. I think that most Oregonians would agree that training and a permit is a generally good idea but the implementation of this act is horrific.

Additionally, the fact that there is no grandfather clause for standard capacity magazines is down right unconstitutional. This bill will hurt every citizen, no matter their political beliefs or stance on private ownership of firearms.
