I have lived in Oregon since 1971. I have watched the entire takeover of this once great place. Is there any way you guys could return to sanity. The state government is wholly corrupted. You want all we have. Steal and mispend our money. Take away our rights to everything, firearms, property, parental rights? Yet impose on us your religion of abortion and servitude on the real people who just want to be left alone with their freedom some what intact. Your pride and falsehoods has an odder. It smells like an old, unbathed hippie girl doused in Petiole Oil. It is very obnoxious Give a thought to character and honesty. Stop taking our firearms. Stop giving ODOT money to DEI worship. And the seemingly endless list that could be written. Thanks Ken
