HB4145

Dear senate committee on rules,

The provision that: Excludes LEO (retired & active) from the Permit system.

Creates special class of citizens who can purchase firearms at will. Does this mean that we can expect our public servants to be allowed to militarize themselves? That we trust them without review?

Seems to be a bad measure. I oppose. I think law enforcement should be equal to a citizen. Except on duty and supplied then by public armory.

Thankyou.
