

Submitter:

Max Brown

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

HB4145

This measure will make it more difficult for marginalized communities to arm and defend themselves. This is not right and has historical parallels that are bleak. We are living in times where overt fascism and bigotry are lauded and encouraged from federal officialdom. It isn't right for law enforcement and those who "stand back and stand by" to have a monopoly on force.
