

Submitter: Marcus Hairston
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: HB4145

Good morning,

I would like my testimony against M114 added to the opposition of its enactment as well as to add I am against any new unconstitutional regulations or laws in Oregon. Simply put as a POC watching the US government force its will against its own people I cannot in any good conscience support limiting any means to protect oneself or our neighbors. And more directly as a father there is nothing I wouldn't do to keep my child from harm and would assume every parent holds the same feeling. No Aunt, Uncle, cousin, grandparent or guardian should have additional barriers put in place to being able to protect oneself or those you love most from harm.....and harm is the new daily standard under this Administration. I urge you not to finish this, let it pass or go into effect at all. Propose a new bill later on something less restricted and less money centered but only after or Federal government is under some control.....honestly disarming people under what seems to an Authoritarian regime is dealing a death sentence to your constituents. Be smart and stop this for now. Thank you for your time.
