Given the overwhelming objection to this by the public, and Kropf's bullying tactics to force a vote he lost to go his way, this bill should already be dead.

The fact that the Dems are ignoring the majority of Oregon residents' opinion over this shows it's citizens that they don't care what the people affected by this think. I would like for that not to be the case.

Please vote no on this and restore some or the integrity that you all have lost in the recent past with actions that imply you don't care about your constituents.
