Committee: Senate Committee On Rules
Measure, Appointment or Topic: HB4145

Have you looked at the news about what is happening in Mexico? The citizens are helpless against the cartels! If the Government had not taken the firearms away from the citizens, they would be able to help eliminate the dominate control of the cartels.

Oregon is inching their way into removing the right of the citizens to bear arms! I oppose this next step in controlling our defense.

When Iran gets angry and begins striking US soil, we need to be able to defend ourselves in stead of hiding in our homes like the Mexican people are.

I strongly OPPOSE and further gun controls.
