Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

Dear Committee Members:

I write to you in support of HB 4145 for a simple but compelling reason. State laws requiring background checks at the point of sale and/or as part of a permit to purchase are associated with lower rates of firearm homicide, firearm suicide, and firearm trafficking.

Together, let's reduce gun violence in Oregon.

Respectfully,  
Sherry Monie
