To whom it may concern,

Today I write to you as a mother of school aged children, a school district employee, and a generally concerned citizen. I urge you to support HB 4145 to help reduce homicide and suicide rates in Oregon. This bill will help to put in place one of the easiest and most effective deterrents to abusive gun ownership. Additionally closing the Charleston loophole and ending the use of large capacity magazines.

We require a learner's permit to drive a car and it is common sense to require permitting before a gun purchase. I do not want to continue to have to worry about mass shooting events at schools and this will help to reduce the likelihood of such events.

Thank you for your time.
