Measure, Appointment or Topic: HB4145

Thank you for those opposing HB 4145 and your continued support of all Oregonian's 2nd Amendment right and for seeing HB 4145 is not only a bad bill, but an infringement upon this right. As the saying goes, "It's really easy to give away another's right who may choose not to exercise that right". Having been around, and involved in the shooting sports, including youth shooting education and competitions, hunting and fishing, and wildlife conservation all my life, from Minnesota to Alaska, and now in Oregon, it's a big issue for me, and very near and dear to me and many here in Oregon and nationally. The very idea that this bill can only be litigated and heard in 1 of our 36 county courts is ludicrous and unconstitutional for a state-wide law. Just image the Judge/Court shopping this precedent would set. Wow, it is absolutely mind-boggeling and goes against the foundation, of well, just about every thing this State and America was built on, Kristin Webb, Astoria, Oregon
