

Submitter: Steven Rittenberg

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: HB4145

The 10 round magazine capacity law is a total waste of time bothering with, Exactly what is it supposed to accomplish? If it does anything it might restrict a lawful licensed citizen in protecting himself or herself in protecting themselves from violent criminals that has no respect for the law. Is it going to do anything for or against a person going to the gun club or firing range to practice? Do you really think the criminal is going to restrict themselves to ten rounds; what a joke that is. My carry gun only takes an 8 round magazine, and I don't plan to change anything. If you license folks to carry concealed firearms to protect their family why would you really care how many rounds is in the magazine; this is wasting time at our expense to try and invent worthless laws as HB4145.

Respectfully,  
Steve Rittenberg
