It never ceases to amaze me how Democrats can be so maniacally fixated on "Gun Control", and this Legislative session is no exception.

While doing absolutely nothing to "Reduce Gun Violence", HB 4145 and Measure 114, its equally ill-advised predecessor, will only serve to further widen the urban/rural divide in Oregon.

Then, in a further irony, the hand-wringing over "Gun Violence" is coming almost entirely from the urban areas - where Democrat social and fiscal policies have unleashed a large population of homeless drug addicts and other such criminal "Demographics" to prey upon the rest of us - while running businesses out of the State and thereby eroding the tax base of support for Democrat "Social Programs"?

Finally - in this series of machinations worthy of a Franz Kafka story - the Democrats want to deprive those of us who aren't on dope and are not being sought by law enforcement of the means to defend ourselves?

No, Thank You...
